

## ENTHUSIASTIC FOR KINCHELOE

Lawson Tribune Sees In Hopkins Candidate For Congress a Sure Winner.

Hon. D. H. Kincheloe, of Madisonville, looks like a winner for congress. He was in our midst a few days since mingling with his many friends in his race for Congress, and was very jubilant over his chances for success.

There is not a Democrat in this district who is more qualified and more deserving of his great honor at the hands of the democracy of this district than Dave Kincheloe. He has been on the "stump" in these eight counties in every campaign for the last seventeen years in behalf of the Democratic Party and its nominees. He knows as many and perhaps more democrats of this district than any other man in it, and is exceedingly popular throughout the district. He will carry Hopkins county by perhaps the most tremendous majority ever carried by any candidate in recent years; that he will carry McLean County the county in which he was born and reared practically solid is already conceded. In Daviess County he knows practically every democrat in it, besides it is the county in which his father was reared and in which all of his relatives reside and the county in which he has campaigned perhaps more than any other county in the district. In Hancock County, the democrats never called him in a campaign that he did not readily respond and render great service in their behalf. It is conceded by all that in case Christian County has no candidate, he will carry it by an overwhelming majority. Every well informed and fair minded man will concede that he will at least break even, if not carry, Webster County. Owing to his extensive acquaintance and the many campaigns in which he has participated in Henderson County, he will get a large vote there. The democrats of Union County also appreciate his service to the Democratic Party and will give him a big vote.

We feel that the above is a candid and fair prediction as to his strength in the various counties; besides he is a good mixer and one of the best campaigners in Kentucky, and in view of these facts, he will gradually gain throughout the district as the campaign progresses. All of this being true, as we believe, we are free to predict that Dave Kincheloe will be the next democratic nominee for Congress in the Second Congressional District.—Lawson Tribune—Advertisement.

## NEW SYSTEM OF RATES

Effective To-Day in Interstate Shipments, Making a Material Reduction.

New York, February 4.—The new system of interstate express rates on a scale 16 per cent lower than those formerly prevailing became effective Feb. 2 under orders issued by the Interstate Commerce Commission.

On the same basis of decrease in rates the States of Maine, Vermont, Connecticut, Pennsylvania, Delaware, West Virginia, Kentucky, Ohio, New Jersey, Illinois and Louisiana are putting into force a system in interstate express business. The new intrastate rates are based upon a block system, the country being divided into 916 blocks formed by the intersections of the meridians of longitude and parallels of latitude. The first and second-class are based upon rates for 100 pounds. Third-class rates are 1 cent for each two ounces, not to exceed first-class rates.

Another important feature of the new express rates system now in force is that every express office in the United States is able to determine and quote a rate to every express office in the United States. A new uniform express receipt also became effective to-day. Heretofore each company used a separate form of receipt.
